**Meet the RINI Staff**

Mimi Tsiane

Director of School Culture and Community.

Since March of 2020, I have worked with a growing school community of students, families, and staff to support and ensure student success. I completed my Masters in Education at Providence College (where some of our graduates are starting their freshman year) and I am a staunch advocate and believer in education.

Last school year highlighted the many successes in education and some needed areas of growth. Through it all the integral piece has been the resiliency of our entire RINI school community and its commitment to diversity, equity and inclusion. I am always in awe of our students who continue to thrive and the RINI staff and families who continue to support and guide future nurses and healthcare professionals. This year we have many initiatives and resources to support student learning and growth. I am proud and honored to be a part of this innovative model of health and education; RINI Middle College.
